

Listing ID: 13

Company Name: Hire Buddies

**Description: There are 50,000 motorhomes in the UK and most of them spend their time sitting on the owner's driveway. Many owners would like to hire them out but there are several hurdles to this including insuring the vehicle while it is out on hire.

At the same time there are thousands of people who would willingly hire them. Our role is to help match the people that wish to hire motorhomes with the people that have motorhomes for hire.

hirebuddies is an organisation with two simple objectives:

 * To provide our customers with the opportunity to hire good quality motorhomes, at their convenience, anywhere in the UK.
 * To be a friendly, helpful organisation that motorhome owners can join, in order to be able to hire their motorhomes out.

We aim to achieve these objectives in a professional, friendly and caring manner. We understand that we are dealing with beloved motorhomes and highly valued holiday time.

We hope that any dealings you have with our organisation meet your expectations and thank you for your custom.**
